

V Cut Machine CWVC-200

**Hot Selling V-Cut Pcb Separator Machine With Lowest Stress And Ce Approval CWVC-220
pcb separator machine CWVC-220 Feature:**

1. pcb cutter machine CWVC-220 was designed to shear pre-scored PCB carefully, without bending and tension stress.pcb
2. Even sensitive SMD-Components like ceramic capacitors, will not be damaged by the shearing process, or thin board even to 0.3mm can be worked safely.
3. Shearing process without vibrations.
4. PCB shearing control method is by pneumatic-driven.
5. PCB control operation is that operator stamps the foot pedal to shear PCB.
6. Highest components near the v groove of PCB can be up to 50mm.7.Gap for insertion of PCB can be easy to adjust.
