

# ESD SMT Splicing Products

- **SMT double splice tape (01 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Double splice tape	SMS0108/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Double embossed dots designed for easy alignment, applicable for jointing paper Carrier tape, one piece for one jointing.

- **SMT Single splice tape (03 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Single splice tape	SMS0308/12/16/24/32/44/55	For 8mm/12mm/16mm/24mm/32mm/44mm/55mm carrier tape (Emboss)	4000/2000/1000 Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Applicable for all machine, can be used with splice clips for a more reliable jointing.

- **SMT Universal splice tape with clip (08 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Universal splice tape	SMS0808/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Applicable for all machine, high reliability of jointing, easy operation.

- **SMT special splice tape (09 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS0908/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable for Universal, Juki, Sanyo, Hitachi machine, 3 tape strips designed for strong jointing with high reliability.

- **SMT splice cover tape extender (11 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	SMT Cover tape extender	SMS1108/12/16/24/32	For 8mm/12mm/16mm/24mm/32mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Worked as a extender for reduction of remaining components wastage.

- **SMT special splice tape (13 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS1308/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable Hitachi, Panasonic CM402, machine detective to avoid wrong components jointing.

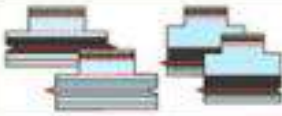

- **SMT universal splice tape with 8 holes (15 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Universal splice tape	SMS1508/12/16/24/32/44	For 8mm/12mm/16mm/24mm/32mm/44mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

8 holes designed for easy alignment, can be used with positioning fixture for more accurate and reliable jointing.

- **ESD SMT special splice tape with clip (16 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape & clips	SMS1608/12/16/24/32	For 8mm/12mm/16mm/24mm/32mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable for Panasonic, machine detective, tape with clips designed for more reliable jointing.

- **SMT single splice tape with alignment guide (17 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	single splice tape with alignment guide	SMS1708/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	1000Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Applicable for all machines, single splice with alignment guide, can be used with splice clips for a more realible jointing.

## • SMT double splice tape with alignment guide (18 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Double splice tape with alignment guide	SMS1808/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Applicable for all machines, double splice with alignment guide, easy operation for paper Carrier tape with accurate jointing.

## • SMT special splice tape (19 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS1908	For 8mm carrier tape (Emboss)	500Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Especially applicable for Universal, Juki, Sanyo, Hitachi machines, 4 tape strips designed for strong jointing with high reliability.

## • SMT special splice tape (20 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS2008	For 8mm carrier tape (Emboss)	500Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Applicable for Universal, Sanyo, Hitachi machine, 8 holes designed for easy alignment, accurate and reliable jointing.

- **SMT single splice tape (21 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Single special splice tape	SMS2104C	For 4mm carrier tape (Emboss)	500Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

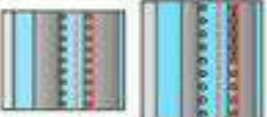

For jointing 4mm Carrier tape only.

- **SMT special splice tape (25 series)**

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS2508/12/16/24/32/44	For 8mm/12mm/16mm/24mm/32mm/44mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable for Panasonic & KME machine detective, reliable jointing.

- **SMT special splice tape for Fuji NXT (27 series)**

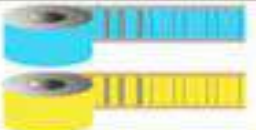

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS2704/08/12/16/24	For 4mm/8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Applicable for Fuji NXT, machine detective, reliable and accurate jointing.

## SMT special splice tape for Fuji NXT-automatic(31 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS3108X	For 8mm carrier tape (Emboss)	1200Pcs/Roll	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable for Fuji NXT-automatic splicing machine with detective features.

## SMT special splice tape for Panasonic-automatic (34 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS3416GC	For 8mm carrier tape (Emboss)	1200Pcs/Roll	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

Especially applicable for Panasonic-automatic splicing machine with detective features.

## SMT special splice for Panasonic (35 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS3508/12/16/24	For 8mm/12mm/16mm/24mm carrier tape (Emboss)	500/250Pcs/Box	C	√	√
					N	√	√
					G	√	√
					M	√	√
					L	√	√

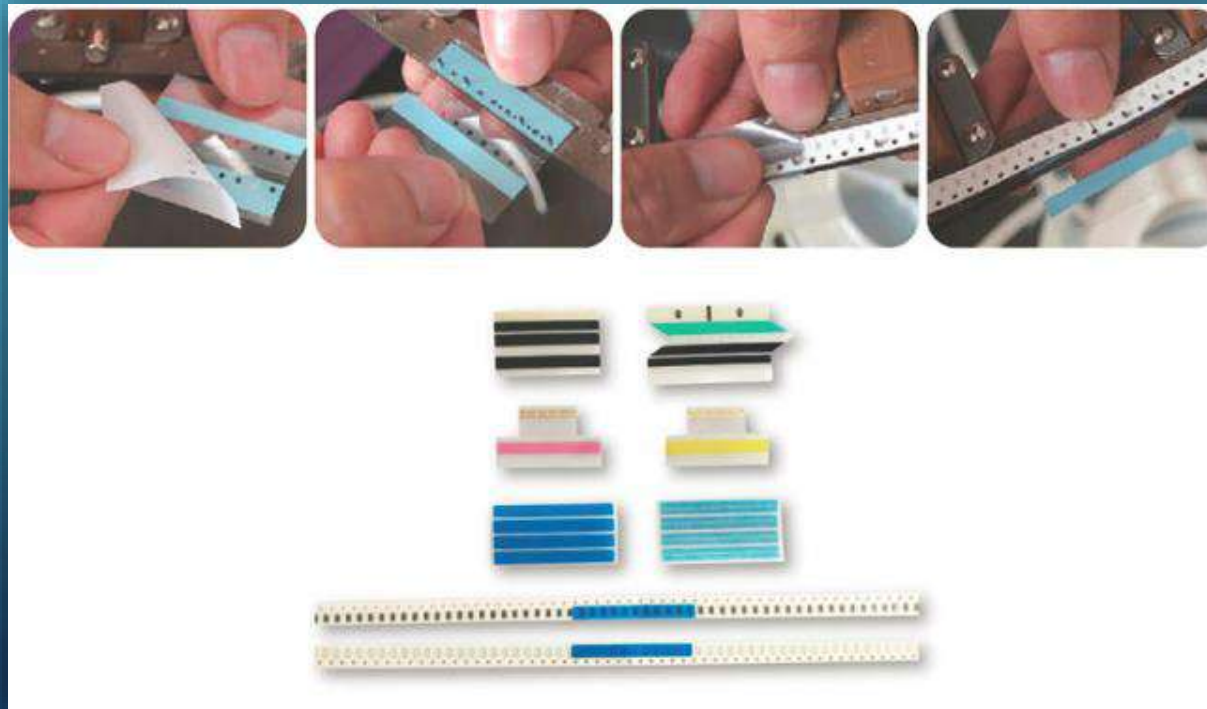

Two guides design for easy alignment and high jointing efficiency.

# • SMT special splice tape for Automatic splicing (36 series)

Product image	Description	P/N	Application	Qty	Color	ESD	No ESD
	Special splice tape	SMS3608X	For 8mm carrier tape (Emboss)	1200/3000Pcs/Box	C	✓	✓
					N	✓	✓
					G	✓	✓
					M	✓	✓
					L	✓	✓

Especially applicable for Automatic splicing machine, can be detective, high jointing efficiency.

# SMT splice trolley TL03/TL01

**This splicing trolley is intergrated with KHJ own splicing plier, cutter and splicing tape for perfect SMT splicing solution.**

1. Additional platform for laptop is designed for real-times production IMS.
2. Wheels: 360° rotatable (movable around production floor in all direction).
3. Splicing plate: Height can be adjusted (900mm – 1030mm).
4. Materials tray: convenient for picking & placing of carrier tape, clips, cutter/plier.
5. Special designed tool base and cooper scrap collection box: splice plier can be rotated freely easy to load and unload plier.
6. Junk box: simple and light with anti-static material, good for waste collection.

## SMT pleir-type splice tool TL10

- Clutching handle easily, flexible operation and durable.
- High accuracy and reliable jointing.
- Portable for manual jointing operation.

## SMT new stapler-type splice tool TLC102C/TL100

- Complete 20 joints continuously, it can push new frame clip automatically like stapler for non-stop jointing operation.
- Safety design, no scrap copper to hurt operators hand

## Al splice cutter TL70

- Used to cut the Al carrier tape.
- Makes the Al carrier tape jointing easier and more convenient.

## SMT Positioning cutter with tooth TL63/TL62/TL61/TL60

- Applied for precisely cutting all size of carrier tapes.
- Can cut exactly at middle of two components to avoid component damage.
- Small size version, which can be easily put into operators pocket.
- Tooth design, it makes the jointing operation more convenient and precise.

## SMT splice cutter TL33

- Sharp and durable cutting Blade.
- Special positional device design.
- Easily open the spring between 2 handles after cutting.
- Locking device at end of handle for safety purpose in unused condition.

## SMT splice cutter TL30

- Simple design, easily operated.
- Safety design with locking device.

## SMT splice cutter TL301H

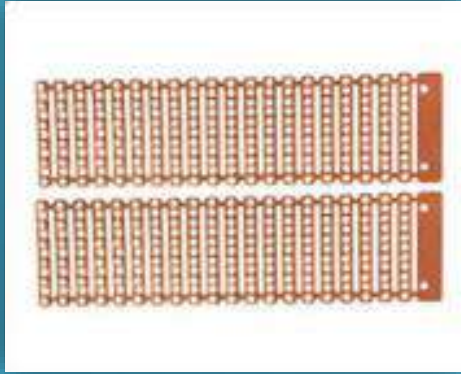

- Anti-static handle, excellent Steel material, with adjustable handle opening distance.

## SMT positioning cutter TL20/TL21

- Special positioning function, safety design, no scrap copper to hurt operators hand.
- Special material, long lifespan.

## SMS-0604 Staple-type frame clips

- No scrap copper side to avoid hurting operators hand.

## 11-Hole individual copper clips SMS-0600

- 100% pure copper, thin, reliable.
- Available for jointing all sizes of carrier tapes.
